# JUPITER CONSULTING SERVICES

COMPANY PROFILE

Jupiter Consulting Services is a certified Minority owned and Women owned (MWBE) company organized under Missouri law. Jupiter participates in the E-Verify program, and is working towards GSA Certification. Jupiter was established in 1998, and our Headquarters is located in St. Louis, MO with satellite offices located in NJ, CA, and TX. Jupiter is a commercial enterprise with a dual focus. Jupiter concentrates on providing both Professional services and Project Services including new software development, maintenance and support, networking/infrastructure, quality assurance testing, data warehousing and database administration, business analysis and project management. Jupiter provides a comprehensive skill set solution, based on our Client's business needs. We have a diversified client base in the following industries: Aerospace, Banking, Brokerage, Computers, Consulting, Distribution, Health Care, Insurance, Manufacturing, Pharmaceuticals, Telecommunications, and Travel.
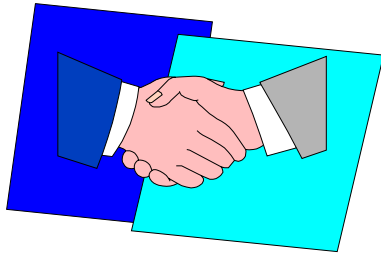

We believe in providing quality services. Jupiter clients are secure in their knowledge that Jupiter can and will provide them with the highly qualified IT professionals that they need, and in the timely manner that they require. It is this knowledge that keeps Jupiter in the forefront of the minds of our clients when the need for quality IT professionals presents itself.

OUR MISSION

Our mission is to build long-term, mutually beneficial relationships with each of our customers. We take pride in our integrity, and deliver the support our clients need with respect. Your success is our success and we would like the opportunity to grow with you. It is our dedication to providing our clients with superior service that has allowed us to grow and flourish. We have global affiliates in five countries and our consultants currently staff projects in many different cities across the United States.

YOUR FUTURE WITH JUPITER

WE DELIVER

Our commitment and support in helping you seek and create a meaningful future in Information Technology by obtaining valuable projects in esteemed companies giving you infinite opportunities for personal and professional development and pride in your profession.

Providing you with all necessary resources to continually upgrade your skills and knowledge on the latest releases of software products. Helping you get an edge in the already competitive and challenging world of Information Systems.

Creating an exclusive and attractive compensation and benefits package, delivering the motivation you need.

Investing time and effort throughout our business relationship in understanding each of your needs, concerns and problems giving you the best we have in terms of our continuous support and solutions.

WE BELIEVE

The organizations that will truly excel in the future will be the organizations that discover how to tap people's commitment and capacity to learn at all levels in an organization.

In creating a win-win situation for every member of our team, as we value our human resources and seek to create a learning organization; blending individual aspiration with the organization's objectives, learning together to achieve a shared image for a better tomorrow.

In a learning organization starting with a principle of creative tension, which comes from seeing clearly, where we want to be, our vision, and telling the truth about where we are - our current reality. And life is sustained by traction between where we are now and where we want to be - some goal worth struggling for.

WE OFFER

Our focus approach towards getting you the right company with proven accomplishment and considerable business repute. Enabling you to experience your full potential in terms of your special skill set and a competitive business environment to suit your needs. We know your worth and are responsible for your future as much as you. Therefore, in this future-seeking journey, we provide our commitment and support you need, when you need it.
